

ZERO BEAT

SEPTEMBER 1965

So. Eastern Mass. Amateur Radio Assn.
54 Donald St. So. Dartmouth

Vol 1

No. 2

MEETING NEWS

WIAEC members do not have to worry about being smoked out of the club this winter thanks to WALGRA and WALCNO. Dick donated new stove pipes and Len installed them. Now everyone is waiting with bated breath for WLUID to polish them. wat Say, Art?

A new club emblem was also decided upon. Approximately 25 designs were submitted for the emblem contest with KLIBR's being judged the winner. Decals will be made from Bill's design and they should be ready in the near future.

Also discussed was the next building project, a grid dip oscillator. Sessions will start when the code classes terminate.

Other topics were a fox hunt and a auction of odds and ends of radio equipment.

T.V. RAFFLE

Members are reminded to circulate the TV Raffle tickets. A 13" Admiral portable TV set is to be raffled off at the Sept 30 meeting with the profits used to purchase new equipment for the club. Tickets are 50¢ each or 3 for \$1. Any members who do not have tickets are urged to obtain some from KLIBR.

NEEDED***NEWS

Any person having news of general interest for ZERO BEAT should contact Art, W1FJI, Bill, KLIBR or Wayne, W1CCM (99-56541).

MASS WSO PARTY

Contest hounds, here's your chance to make a good showing for Massachusetts. The M.I.T. Radio Society, W1AX is sponsoring a Mass. WSO party on Oct. 2-4. Details may be found on page 132 of the Sept issue of WST.

RARE QSL

Talk about rare qsl cards. There is one posted on the wall at WIAEC. Yes, that's right. It's "Whit's" W1LAZ.

George Gracia is in the hospital for a short while. He would probably appreciate a QSL from all club members. Lombard 2, Room 208

George, W1KHV is tearing his shack apart and rebuilding it. He has had his 20 mtr beam down all summer. Now that the hurricane season is approaching he is going to put it up! Incidentally, George now has an NOX Mark II. It makes a good standby George!

Speaking of beams, K11NO's 15 mtr beam has been up and down, up and down, up and down. Sounds like your running an elevator there, Mark.

Word has it that Bruce, W1DHA built a new keyer. The next project is a tunable converter for six.

"OLE HOSS TRADER"

We just can't keep up with WALGRA. Since last month Dick has had four different receivers and a couple of transmitters, not to mention 3 cars. (He has another receiver for sale in this edition)

We're going to try to give a brief rundown on club members in each edition. Since KLIBR is the club president we thought that we wud start with him.

Bill was first licensed in 1958 and presently holds a general class license. He also holds a first class commercial with radar endorsement. His main interest is designing and building equipment. He was a radar technician in the air force spending 2 years as a technical instructor. While in the air force Bill held the call K17EFM. His hobbies are coin, mineral and gun collecting. He also runs a QSL and general print shop as a hobby.

Ray, K1VOK did a real fb job in the New Jersey WSO party. He worked 14 counties and had 31 counties. This is in between his skeds with traffic nets.

FOR SALE!

1 Vibro lex bug \$10.00 w/extra weights
 1 Eico 12 watt Amp. \$10.00
 1 6 mtr Bud TVI Filter \$8.00

HERE N' THERE

W1LAPX had W1DIR and W1LQH breaking
 out the key on 10 mtrs.

There have been some real enjoyable
 round tables on 10 lately. Hat say
 fellas, plenty of room for all.

Barry Mendoza has been waiting fer
 his new novice call. It could be
 W1LHHH. Cheer up, Barry; Just think
 what it wud sound like if u lived in
 W5 land!

W1LEWE who recvd his ticket in July
 is usually hrd on 80 mtr cw from
 2-5 pm. We'll look fer u on 3722
 or 3745, Allen. Allen's 2nd contact
 was VE2BVY. Guess who was W1LEWE's
 3rd contact? Dat's rite, VE2BVY!
 How do u guys do it? When we first
 got on the air we called Qz fer 2
 months es all we got was QRN!

Bob Gignac has been brushing up on
 his code speed. He has a NC 240-D
 and is copying W1AW. Looks like a
 new novice pretty soon.

So you think that you have antenna
 problems? K1YMW was talking to
 Burlington, Vt. when his signal went
 dead. Turns out that his neighbor
 chopped Bill's antenna down while
 Bill was in the middle of the QSO!
 We're sure glad that our neighbor
 doesn't have an Atwater-Kent!

W1LBZJ finally has his tower up.
 All 60' feet of it.

WANTED

NC 300 Receiver
 Contact Larry Ferreira
 WY 4-4083 after 5:30

K1IBR is also looking for
 a NC 300

Any person selling, buying or swapping equipment may place an ad at no
 charge. Just contact Wayne, W1LCCM, WY 5-6541.

HE REALLY BELIEVES
 IN A GOOD GROUND
 DOSN'T HE
