August 2007

OIL SPILL

It was on Thursday, July 19, 2007. I received a phone call from Rick, W1RJC, who was working late in the evening on the IRLP controller for the 147.000 repeater. He needed someone who had keys to be able to open up the shed. It seems that the oil tank was leaking oil because the elbow under the tank had broken.

BROKEN ELBOW

When I got there about 10 p.m., I could smell the oil. Looking at the scene, all I could think of was "Good thing we didn't top off the tank earlier this summer."

THE DARK OIL POOL ON THE GRASS

The next day, Frank Corp had arrived to start the clean up of the oil spill. They first prepared the area to receive the contaminated soil and anything else they might find, including the oil tank. Then they dug an exploratory trench to determine the extent of the oil contamination and get as much of the oil out of the soil as possible. They used sponges to soak up the standing oil. After they got thru, the place was neatly covered for the weekend.

DIGGING THE FIRST TRENCH

THE CLEAN UP BEGINS

OIL IN THE HOLE!

It seems to me ...

de *Bob - K1KVV* <editor@semara.org>

That the these are interesting times. I get the sense that “even dark clouds can have a silver lining.” Just now there are things happening that I don’t entirely understand, like the three resignations last month. The silver lining: the potential of getting some new blood into positions of responsibility.

Our financial worries stem, in part, from the lack of dependability of our tower rental income. This has been taken for granted and has resulted in some questionable practices and decisions. Since we did away with dues, I wonder why we continue to give away coffee and donuts each Sunday. There was a time when everyone chipped in to cover the cost. The same thing goes for the price of the SEMARA events, be they BBQ chicken or a Clam-Boil. Where else can you get an ‘all-you-can-eat’ deal for \$5? Things have to change. I notice that our sister radio club in Fall River, the BCRA, is scheduling their Xmas Party with a \$33 price per person. How many of us would support that price for a party at the Venus de Milo restaurant or similar?

That brings me to the \$64 question. If we took away the Sunday morning coffee and donuts, would we do more amateur radio as a club? When was the last time SEMARA acted as a radio club? Sure there have been sporadic attempts for small groups to participate in Skywarn, ARES, RACES emergency exercises; contests and field day have woefully light turnouts. You say, “That’s not for me.” Then what is for you?

Please let me know what you would like to do at/with SEMARA that’s amateur radio related. If I don’t hear from you, then that tells me volumes.

Can you contribute to the well-being of the club? Then let’s talk about that instead of second guessing what is going on according to the gossips. If more people were involved and making a positive contribution, I wouldn’t have to mention these things.

How about giving a Tech Talk? [You remember those from last fall or winter.] What can you do to introduce young people to the mystique of amateur radio? Listened to any good transpolar signals lately?

The sun spot cycle may be at a low; but that’s no reason to abandon the hobby. Have some fun, again!

HAMMIN' AROUND

Question* T1C10 When may a US amateur operator communicate with an amateur in a foreign country?

- A. Only when a third-party agreement exists between the US and the foreign country
- B. At any time except between 146.52 and 146.58 MHz
- C. Only when a foreign amateur uses English
- D. At any time unless prohibited by either government

* 2006 Element 2 Technician Class Question Pool (good thru 2010-06-30) **Answer on page 8**

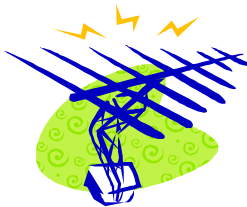

CLUB NOTES

August is the month for getting ready for what comes next. For SEMARA next means lots of things: oil spill clean up, re-install the heating system, plan for the 75th Anniversary celebration, run the SEMARA Flea and Tailgate, just to name a few.

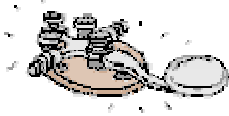

So, how about you? Have you tried 10-meters yet? You know that you can easily check out the propagation just by listening. Yes, there are simply loads of beacons, so high power but most low power. Don't know who's who. Simple, go to <http://www.ten-ten.org/beacons.html> and look it up by frequency.

If you are interested in 6-meters, one list is at <http://www.keele.ac.uk/depts/por/50.htm>. You'll also need a Maidenhead grid square map, since some 10-m and almost all 6-m and higher beacons give their location by grid square. Print the PDF files from <http://www.icomamerica.com/downloads/miscellaneous/usgridsq.pdf>.

For HF, the NCDXF/IARU Beacon Transmission Schedule can be found at <http://www.ncdxf.org/Beacon/BeaconSchedule.html>. It takes three minutes to go thru the list. WARC bands were added in 2005.

POINT TO PONDER

"People demand freedom of speech to make up for the freedom of thought which they avoid."

MEETING MINUTES

JULY 5, 2007

The business meeting was called to order at 7:23 p.m. by the president **Louis Mester, W1CH**.

The salute to the flag was followed by a roll call. A quorum of 21 members was present. No guests were in attendance.

Secretary's Report (Armand Augustine, W1BUG): John Carreiro, W1ZYV, moved to accept the minutes of the June meeting as presented in July's *Zerobeat*. Passed unanimously.

Treasurer's Report (Mike McDonald, KB1NB): Club's financial account balances reported at \$63,395 as of 30 June 2007. Mike had called NETCOM asking for the undisputed amount of June rent which was later received on 20 June. July rent, due on 1 July, has not been received to date. Information has been given to accountant Milt Johnson in order to file 2006 taxes. Mike asked that non-returnable beverage containers not be mixed with returnable items in the returnable bin. Motion by **Mike Miller, N1ITQ** to refer the report to audit passed unanimously.

Standing Committee Reports

Technical Committee (Dave Goldstein, W1DJG): no report.

Buildings & Grounds (Mike Miller N1ITQ): Mike stated that our lawn had been crossed again by Little People's College (LPC) delivery trucks with ruts and possible petroleum spill resulting. He agreed to call LPC to report incident. Discussion followed about using telephone poles on hand to block access. Mike will put off oil burner service until Quonset hut is removed.

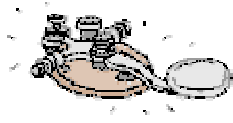

Scholarship (Larry Houbre, AA1FS): no report.

Special Committee Reports

Activities (Scott Szala W1EV [not present]): Tim Smith, N1TI's suggestion of having a small hamfest the weekend after Labor Day was received positively by membership.

Ares/Skywarn: no report.

Building/Renovation (Dave Dean, K1JGV): no report (see communications).

Communications (Bob Kelley, K1KVV)

Dave Dean, K1JGV submitted an e-mail to the club officers on 7/5/07 announcing his committal to the removal of the hut. Additionally, he announced his *resignation from the Board of Trustees* effective immediately.

Ratification of New Members

No applications received this month.

President's Comments

None.

Old Business

Jim Gilbert, no call, moved to rescind the motion made at the September 2006 to send information packages to all members before taking a vote on a new building. *Passed unanimously.*

New Business

Mike McDonald, KB1NB, moved to renew the lawn maintenance contract with **Mike Miller, N1ITQ**, for 2007 at \$35 per cutting at a minimum of two weeks apart. *Motion passed.*

John Carreiro, W1ZYV, moved to have club cleaned by **Jim Gilbert** at \$30 per month in accordance with the recommendations of the April BOD meeting. *Motion passed.*

Tim Smith, N1TI, moved that SEMARA take action to secure NETCOM tower base by installing a fence around it. Seconded. **Mike McDonald, KB1NB**, moved to table motion until NETCOM is contacted. *Motion to table passed.*

Mike McDonald, KB1NB, moved to notify the membership of the August building vote by the SEMARA reflector and *ZEROBEAT*. *Motion passed.*

For the Good of the Club

John Nery, WA1ESO, reported sending out club QSLs every few months. He would like to re-instate Logbook of the World (LoTW) at the Club. **Tim Smith, N1TI**, agreed to assist John.

Bob Kelley, K1KVV, reported that no events are planned at this time.

Dave Neal, W2DAN, moved to adjourn. *Passed unanimously.*

Respectfully submitted,

*Mike McDonald, KB1NB, acting secretary**

* **Armand Augustine, W1BUG**, Secretary *re-signed* his position mid-meeting.

SEMARA NEWS

BOARD OF DIRECTORS MEETING

15 JULY 2007

Meeting called to order at 10:20 a.m.

Present:

- W1CH, Louis Mester**, president
- K1KVV, Robert Kelley**, vice president
- KB1NB, Michael McDonald**, treasurer
- W1ZYV, John Carreiro**, BOD member
- KA1YFV, Marty Jordan**, BOD member
- WA1ZCB, Edmond Duclos**, BOD member

Observers: 5

Bob, K1KVV, suggested a *75th SEMARA* celebration to take place on Saturday, September 8th. He suggested that members could also set up that day for the tailgate to take place on Sunday, September 9. **Ed, WA1ZCB**, will contact **Scott Szala, W1EV**, to see if we can coordinate the chicken BBQ with that day. **Mike, KB1NB**, will check last year's BBQ costs.

The nominating committee will be notified of open offices existing within the club.

The missing fence around the *NETCOM* tower base was discussed. **Tim Smith, N1TI**, volunteered to obtain estimates.

BOD recommended that the *Building/Renovation committee* present what they consider the best option at the next business meeting in the form of a written motion. Building/Renovation committee chair, **Dave Dean, K1JGV**, present at this meeting, was so informed of the recommendation. Dave, being satisfied with services provided, recommended that *Franklin Analytical Lead and Asbestos Services* bill for \$2500 be paid.

Bob, K1KVV, will contact scholarship chair, **Larry Houbre, AA1FS**, to arrange a meeting with the BOD to discuss scholarships.

Bob, K1KVV, will check his e-mail and provide to **Mike Miller, N1ITQ, Buildings & Grounds** chair, the latest list of cleaning duties for **Jim Gilbert** who was authorized at the 5 July business meeting to clean the club at \$30 per month.

Mike, KB1NB, will prepare a letter to *NETCOM* addressing safety of the site, amount of monthly payments, past due amounts, and remuneration of collection costs if applicable. *Southern New England School of Law* will be contacted for assistance.

Tim Smith, N1TI, agreed to provide access to the

club's database for official notices.

Tim Smith, N1TI, suggested that complimentary tickets for the 75th anniversary celebration could be made available to dignitaries.

Mike Miller, N1ITQ, Buildings & Grounds chair will be reminded of the approved re-keying of the repeater site and clubhouse.

The vertical antenna that had fallen from the pole behind the clubhouse and was stored in the fenced in area at the base of the 80 foot tower was discussed. It was observed by **Tim, N1TI and Dave Dean, K1JGV**, on 13 July but was not there on this date. Misappropriation is suspected.

Meeting adjourned at 11:15 am.

Respectfully submitted,

Michael McDonald, KB1NB, acting secretary

NOMINATING COMMITTEE

The nominating committee is soliciting candidates for three open positions. A special election will be held at the September Business meeting.

The positions are:

- Club Secretary (remainder of 2007 term)
- Trustee (remainder of 2009 term)
- Trustee (remainder of 2010 term)

If you are interested in running for either or both positions, please contact me at n1ti.semara@mattapoissett.org.

BUILDING PLANS

**DAVE, KIJGV,
BUILDING/RENOVATION COMMITTEE CHAIRMAN**

Everyone knows that I am a realist. After talking to some club officers and members, I see need for dropping back and reassessing where we are going.

The Board asked me to present a single plan. It is to be for a limited wooden addition. Yet I find myself doing this at precisely the time when the stability of our finances may be in question, not just with the tower contract, but pending an outcome of the recent oil spill.

This is how I plan to unfold what I, with the committee's consent, have in mind. I will present a modified plan building based upon the original \$35,000 expenditure that has been discussed. The new plan will be for a slightly larger addition at increased cost, not to exceed \$50,000. The boiler room will be relocated to the northwest area behind the meeting hall with space to allow for a furnace room and/or fuel tank. Under the prevailing situation, I will strongly encourage that we do not venture into an addition until spring.

It is obvious that we will need the furnace operational in the next two months. My view is that some sort of a temporary tank to feed the furnace be installed within the confines of the boiler room to get us through the winter. We cannot be assured that an addition will be completed before the cold weather with a functioning heating.

Moving the boiler room next year involves nothing for the moment. The Quonset hut is now gone. I feel that if we know what we want to do and all agree (well, most agree), we will do well. I will present this modified plan to the members at the August meeting for approval or disapproval and ask for an up or down vote on it. That will give us at least six months to get our affairs in order. With the oil spill to clean up, we cannot count on building anything until spring.

This is how I see it and I do not feel that I am alone on the issue. I am open for points of view, but think that we need to `drop back and punt` — take a nice deep breath and look at the facts. I will be there for the club and do not plan to go anywhere in the meantime.

LETTERS TO THE EDITOR

FIELD DAY IN NYC

“Hello Bob,

I operated Field Day in NYC along side of the West Side Highway at the west end of Houston St. I'm not in the picture as I was by myself.

This is my set-up at the multi-level parking garage and sports complex where I stay.

Had a great Field Day.

Henry, W1GYL

ABOUT THE QUONSET HUT

“I really hate to see it go. I was there the day it was moved into place. I was also there the days that **W1AVY** and **W1KHV** wired the place. Are there any good photos of the ole hut with the wooden tower and the prop-pitch motor on the tower? If so I would like to have one. I also hope someone has some good photos of the ole hut as it was years ago.

We had lots of great times in the ole hut.

73's, Art, W1FJI

“I can't say I knew **W1AVY**; but I do remember **W1KHV**, what a guy! I want to thank **Art Marshall, W1FJI** for introducing me to the club and the fond memories when Art would take me there to light the old pot bellied stove. I remember once when Art drove his Chevy Corvair right through a snow bank to get in the club parking area. I also remember Art and me one Field Day in front of the club in a leaky tent - no coffee and doughnuts back then. Thanks for the memories Art, like you I will hate to see the old hut go.

Jim, AF1Q
